School Boards
Association

Position Statements *2018*

Introduction

The position statements that guide the New York State School Boards Association (NYSSBA) are outlined in the document that follows. These statements are introduced by member boards of education or NYSSBA's Board of Directors. Each fall during the Association's Annual Business Meeting, the voting delegates adopt official positions, which lay the foundation for the Association's advocacy agenda and priorities.

Once adopted, each position remains a formal position for five years unless it is rescinded or the action the position calls for is accomplished.

(Please note: the table of contents reflects the year the Position Statement was adopted).

The position statements direct the Association to advocate either for or against a wide variety of legislative and regulatory issues at both the state and federal level. In addition, some of the position statements are statements of belief and therefore do not call for action.
